- The well owner must have the water meter enrolled in the Water Meter Maintenance Program.
- A meter is not eligible for repair/replacement (new) more than once every four (4) years.

- Water meters are not eligible while under warranty.
- Repair/replacement (new) must include proper installation in accordance with the Districts requirements. The District may waive the "proper installation" requirement for water meters installed voluntarily prior to June 30, 2010, if the District can determine that the meter is recording accurately (plus or minus five percent).

I, the undersigned, do hereby request cost-share assistance to help defray the cost for repair/replacement of a water meter. It is understood and agreed that:

1. Application for a water meter practice must be made directly to the District office at 319 East 25th Street, York Nebraska 68467. The application must be made using a District approved form.
2. Applications are screened for compliance with Upper Big Blue NRD rules and regulations prior to being accepted as eligible for the District's programs. After the application has been reviewed the well owner will be notified that the application is eligible, needs additional information, or does not meet policy criteria. Determination of eligibility by the District must be received by the applicant prior to the start of any work associated with the practice.
3. Once an application is declared eligible, the applicant shall have ninety (90) days to complete the practice and submit all documentation required to show that the practice has been completed and to request reimbursement by the District. Failure to complete the project and submit documentation within the allotted time may result in cancelation of the application and forfeiture of the cost-share payment. An extension of time may be requested. Granting of an extension of time will be based on availability of funds and how such an extension will impact funding of other applications.
4. Water meter repairs/replacement (new) under the program must meet manufacturer specifications. Repaired/Replacement (new) meters must meet District specifications.
5. Water meters repaired/replaced with Water Meter Program assistance must be properly maintained by the landowner.
6. If the water meter is removed, altered or modified so as to reduce its accuracy or function, or the landowner chooses to withdraw from the Water Meter Maintenance Program, the landowner must refund all cost-share received during the life of the practice. This condition is binding on heirs, assigns or transferees.
7. Information gathered by the District from other NRDs indicates that water meters will function correctly for many years if they are properly maintained. For the purpose of the Water Meter Program, the design life of the practice is four (4) years.
8. The cost-share rate is fifty percent (50%) not to exceed \$500 per a water meter repair. **Cost-share payments to one applicant, under the Water Meter Program practices, shall not exceed \$1,000 per landowner per fiscal year. The District's fiscal year runs from July 1st to June 30th.** The minimum cost-share payment is \$100 per payee.
9. State or Federal funds and District funds may not be combined for these practices.
10. Funds will be paid directly to the landowner unless the landowner has signed a waiver reassigning payment to the tenant. Reassignment shall not absolve the landowner of the requirements for maintenance for the life of the practice.
11. When required, the applicant must provide power of attorney and attestation of citizenship on forms approved by the District.
